

# Care instructions

wenaCel® comfortPlus Mattress Cover\*

**In order to enjoy your Wenatex product for a long time, please observe the following care instructions:**

Care icons:

- The mattress cover is made of a stretchy fabric. **If the cover begins to lose its shape, we recommend washing it.**
- The wenaCel® comfortPlus Mattress Cover is **washable at 60 °C.**
- Please use the **wenaCare® Laundry Detergent specially developed for Wenatex products** (or another liquid mild detergent without optical brighteners). Please follow the dosage guidelines on the package.
- **Attention: The mattress cover is not dryer-proof.**
- **Please note: The mattress cover is not water-proof.**
- Hanging it up to dry on a clothes line prevents shrinking. Only wash one part of the cover at the same time. If it doesn't dry quickly enough you can still sleep on the other part of the cover.
- **Please note: The mattress cover must not be cleaned with a vacuum cleaner or carpet beater.** This could cause the padding to shift or the fibres of the filling to escape through the cover fabric.

## We recommend:

**wenaCare® Laundry Detergent** for Bedding
