

wenaFlex® Premium R Bed Base

The wenaFlex® Premium R bed base provides appropriate support and relief for each section of the body. The low-level design ensures that the bed base can be used in practically any bed construction to ensure perfect lying comfort. The flexibly adjustable long head section can be easily adjusted to various levels, while the long foot section allows effortless adjustment, thanks to gas-pressurized lifting springs.

Characteristics:

- Inwardly bevelled, laminated beech wood frame with dowelled and screwed corner joints
- 12 spring slats featuring 60 spring elements and 240 support points on standard dimension 90 x 200 cm*
- Thanks to gas-pressurized lifting springs, the foot section can be effortlessly raised, all the way up, to allow easy access to storage space below the bed
- Particularly flexible and durable spring elements made of Tectel, in various levels of hardness and various spring levels, provide an exceptional level of pinpoint support
- 5 comfort zones
- Additional red elements for lumbar support
- Available in all regular sizes
- Custom sizes (and dimensions) upon request
- Max. width: 140 cm; overall height: approx. 8,5 cm (when laid flat)

* The number of spring elements and support points may vary depending on the size and model of the bed base.
